<b>Product integration and support</b> .....	<b>6</b>
<b>Resolved issues</b> .....	<b>7</b>
<b>Known issues</b> .....	<b>9</b>

## Change log

Date	Change Description
2022-08-08	Initial release.

# Introduction

This document provides the following information for the Fortinet IPS Engine 7.2 build 234 (7.00234).

- [Product integration and support on page 6](#)
- [Resolved issues on page 7](#)
- [Known issues on page 9](#)

IPS Engine 7.2 build 234 is a built-in release for FortiOS 7.2.1. It is not a release to FortiGuard.

For additional FortiOS documentation, see the [Fortinet Document Library](#).

# Product integration and support

The following table lists IPS engine product integration and support information:

FortiOS	7.2.1
---------	-------

## Resolved issues

The resolved issues listed do not list every bug that has been corrected with this release. For inquiries about a particular bug, contact [Customer Service & Support](#).

Bug ID	Description
673117	Trivial File Transfer Protocol (TFTP) traffic does not work well when TFTP application set in security policy.
687885	Inconsistent system performance with RFC2544 IXIA breaking point testing.
695464	High IPS engine CPU utilization.
698247	Flow mode Web Filter override crashes and socket leaks in IPS engine daemon.
757322	Inconsistent system performance with RFC2544 IXIA breaking point testing using frame size 68 + SR-IOV interface.
774826	IPS processes consume high CPU usage.
775566	Websites do not load in flow mode with deep SSL inspection.
786479	Traffic log does not work under next generation firewall (NGFW) mode while a reboot can solve the issue on FortiGate 101E.
787151	FortiGate inserts epoch time into the PCAP when detected by some signatures.
789861	Globus file transfer traffic breaks when Web Filter profile is enabled along with certificate inspection.
791175	Cannot access specific website after upgrading IPS engine version.
795677	Upgrading IPS Engine slows web access.
798367	IPS Engine treats FLOW-DLP- CIFS ZIP file block unexpectedly.
798587	NGFW security policy misses <code>internet-service6/internet-service6-src</code> options.
798817	IPS Engine crashes at <code>ips_dac_get_save_log</code> on FortiGate 401E during stress testing.
798829	IPS Engine has signal 7 crash at <code>ips_shm_sig_get</code> on firewall.
800524	IPS engine crashes with signal 11.
800731	In flow mode, antivirus sends HTML files to FortiGate Cloud Sandbox every time when it is not configured in the file list.
802465	ERR_SSL_PROTOCOL_ERROR occurs when loading a website in flow mode.
802683	IPS engine debug filter does not work.
804500	Changing the custom URL filter causes a network degradation.

Bug ID	Description
806083	DNS local domain filter does not work in flow mode.
810105	Signal 14 alarm clock received by updated and hasync crash.
816759	IPS Engine crashes on <code>ovrd_ssl_read</code> on 5.00272.
817902	IPS engine crashes with signal 11.
827253	With IPv6 URI filter, FortiOS only blocks traffic to pure IPv6 and does not detect traffic to obfuscated IPv6.

## Known issues

There are no known issues with this release of IPS engine version 7.2 for FortiOS.

To report a bug, please contact [Customer Service & Support](#).
